

# Developer Capstone – Module 4

## Booking a Table on the Little Lemon Website

**GitHub Repository Link:** <https://example.com>

### ***Project Overview:***

This project demonstrates the development of a functional web application for booking a table at the Little Lemon restaurant. It integrates modern web development practices using React and JavaScript, implementing dynamic forms and user-friendly interfaces to provide a seamless booking experience.

### **Coursera Honor Code:**

I affirm that I will complete this project with integrity and adhere to the Coursera Honor Code principles.
